

Graeme Clark Institute for Biomedical Engineering

Terms of Reference – GCI Membership

Definitions

“GCI” or “the Institute” means the Graeme Clark Institute for Biomedical Engineering, located within the University of Melbourne

“the University” means the University of Melbourne, including all business units, Faculties, schools and Institutes. It also refers to (when relevant) interests of VC, DVCR, academic staff and professional staff

“FEIT MedTech Platform” means the Medical Technologies Platform, Faculty of Engineering and Information Technology

“ACMD” means the Aikenhead Centre for Medical Discovery

Terms of Reference

The GCI Membership will adhere to the following:

Benefits

The following opportunities are available to the GCI members:

- Collaborate in large scale inter-disciplinary research projects with GCI Research Program Leads and researchers from other faculties at the University, industry partners and hospitals;
- Access to resources and stakeholder networks available at the GCI;
- Access to the GCI research support initiatives such as: travel support, top-up scholarships, student awards, internal seed funding and future industry collaboration funding schemes;
- Attend GCI seminars, workshops and other events at no or discounted costs;
- Leverage the GCI access to the FEIT MedTech Platform and ACMD;
- Be eligible to apply for event sponsorships provided by the GCI;
- Obtain in-kind support in grant proposal reviews.

Responsibilities

- Acknowledge the affiliation with the GCI on relevant research outcomes;
- Champion the Graeme Clark Institute within their own research field;
- Support the GCI’s diversity and inclusion initiatives
- Assist and facilitate effective inter-disciplinary research collaboration and translational initiatives with internal and external stakeholders including industry partners on behalf of the GCI;
- Nominate interested students and researchers to join the GCI;
- Be included in the GCI mailing list;
